

CITIZENS PUBLISHING

Citizens Publishing has been established with a goal to publish exclusively to serve the best interests of the absolute majority of people in any nation and the world. We are very proud to release our first book, "Prosperity: Optimal Governance, Banking, Capital Markets, Global Trade, and Exchange Rate," by Professor Sankarshan Acharya. We are looking for authors willing to write manuscripts with special emphasis on feasible optimal policies to serve the best public interest.

What a beautiful earth it is! Does it deserve to face the fury of 50000 nuclear warheads?

CITIZENS PUBLISHING
